PROFESSIONAL SUMMARY

Driven and analytical Information Technology final-year student with strong foundations in system architecture, software engineering, database design, and business data analysis. Experienced in designing enterprise relational databases, building end-to-end web/software applications, and translating technical specifications into business solutions. Demonstrated leadership through academic assistant roles and full-cycle SDLC projects. Actively seeking graduate intake programs and entry-level positions in **Software Engineering**, **Business Systems Analysis**, **BI Analysis**, and **Data Science**.

TECHNICAL RESIDENCY PROJECTS

Lead Architect | "The Apex" (Logistics & Retail Platform)

Academic Collaborative Project (Team of 5) | Feb 2026 – Present

- **Leadership & SDLC Analysis:** Directed a 5-member team through full-cycle systems analysis, translating complex marketplace and logistics operations into structured, secure technical requirements.
- **Database Engineering & Project Delivery:** Formulated scalable data models, Oracle SQL scripts, and workflows for vendor tracking, while authoring risk-mitigation documentation to ensure on-time delivery.

Lead Systems Developer | "The Trashure" Recycling Tracking System

Feb 2025 – Nov 2025

- **Full-Cycle Development:** Designed and deployed an end-to-end information system using C# and SQL, digitizing paper-based tracking into a secure, centralized database.
- **Data Integrity & QA:** Implemented robust backend validation logic to eliminate

data corruption, ensure 100% reporting accuracy, and execute thorough pre-deployment software testing.

Front-End Developer | Indiana Essentials E-Commerce

2023

- Developed an interactive product showcase platform utilizing responsive UI design for seamless navigation across devices.
 - Enhanced customer catalog exploration through intuitive category filtering and clean layout structures.
-

PROFESSIONAL EXPERIENCE

Lead Peer Buddy & Academic Consultant

Gradesmatch Academy (BridgeOne) | July 2026 – Present

- **Academic Consulting & Mentorship:** Provide strategic academic consulting, ongoing peer mentorship, and structured onboarding to guide students through critical higher education transitions.
- **Student Success & Strategy:** Deliver proactive guidance and crisis intervention support utilizing certified hybrid learning models to enhance student retention and academic performance.

Student Assistant: Systems Analysis & Design (SAD)

North-West University | Feb 2026 – Nov 2026

- **SDLC Governance & Technical Audit:** Evaluated system requirements, database normalization, and UML/DFD documentation for 150+ students to ensure alignment with industry standards and eliminate process logic flaws.
- **Risk Identification & Assessment Security:** Conducted deep-dive architectural reviews to safeguard data integrity while enforcing strict access controls and assessment security protocols.

Student Assistant: Advanced UI Programming (C#) *North- West University | June 2025 – Nov 2025*

- **Quality Assurance & Code Audit:** Performed technical audits of complex C# projects, evaluating logic efficiency, OOP principles, and adherence to functional specifications.
- **Data Integrity Management:** Managed the end-to-end capture of student grading within internal systems, ensuring **100% accuracy** through rigorous validation controls.

EDUCATION

Bachelor of Science in Information Technology *North-West University | Feb 2024 – Dec 2026 (Expected)*

- **Academic Performance:** Consistent 80%+ aggregate.
- **Key Focus Areas:** Systems Analysis & Design, Data Analytics, Advanced Databases, Systems Architecture, Information Security, and Project Management.

Higher Certificate in ICT (Summa Cum Laude) *Cape Peninsula University of Technology | Feb 2023 – Dec 2023*

- **Distinction:** Awarded **Summa Cum Laude** (Top Academic Achiever).
-

SKILLS & CERTIFICATIONS

- **Professional Attributes:** Cross-functional Team Leadership, Analytical Problem-Solving, Technical Communication, Risk Awareness
- **Analysis & Architecture:** Business Systems Analysis, Systems Architecture & Design, Requirements Gathering, Data Flow Diagramming (DFDs), Agile/Scrum Methodologies
- **Technical Proficiency:** C#, Python, SQL, Java, C++, JavaScript.
- **Web & Developer Tools:** HTML5, CSS3, React, Visual Studio, Visual Studio Code, Git, GitHub Desktop, Oracle SQL Developer.

Certifications: **CompTIA Security+ (SYO-701)** focused on Network Security and **Coursera Google Data Analytics**
